

Borough of Poole Libraries Get Online Day 2007

For Adults and Kids: Family web challenge

The Family Web Challenge is an online 'game' that introduces you to some of the things you can do on the internet - things which might be useful for you and your family.

It's just one part of the activities your UK online centre is running for their Get Online Day, but it's the bit that's attached to some great prizes!

Complete the Family Web Challenge at your UK online centre during Family Learning Week (6 - 14 October), complete the survey at the end, and you'll automatically be entered into our prize draw. There are some great prizes to win from PC World and Merlin Entertainments. These include PCs (personal computers), laptops, digital cameras and vouchers for family days out.

To play the game, get on to: www.getonlineday.com and then click on Family Web Challenge.

The Get Online Day website will also give you information about the Day, UK Online Centres and the Internet itself.
